

June 5<sup>th</sup>, 2017

The Sarasota Surf and Racquet Club hired Quality Electrostatic Painting to electrostatically paint and repair approximately 150 beach chaise lounge chairs, as well as 2 commercial pool railings and several stairway railings. This was a large undertaking and we were extremely pleased with the quality of the service and the professionalism exhibited.

Every interaction with Gary Engle was courteous and competent. We were impressed with his knowledge of the materials and his follow through both before, during and after the work was completed. Quality Electrostatic Painting did an excellent job, very clean and detailed. We will highly recommend them without reservation.

Sincerely,

Carlin Strouse, General Manager
